

LIGHT COMMERCIAL RO SYSTEMS

LC SERIES

Introducing the **NEW LC Series small in size but big in capacity.** This free standing RO system is only 30" in height but it can produce up to 300 US gallons per day of permeate water.

LC Series is suitable for manufacturing, pharmaceutical, food processing industries, shopping centres, schools, and hotels.

SPECIFICATION

Model	LC-100P	LC-200P	LC-300P	LC-380PP
Production, Permeate	100 GPD	200 GPD	300 GPD	380 GPD
Membrane Element	2	2	3	3
Membrane Type	Thin Film	Thin Film	Thin Film	Thin Film
Operation Pressure	10-125 psi	10-125 psi	10-125 psi	10-125 psi
Operation Temperature	40-110 F	40-110 F	40-110 F	40-110 F
System Dimension (HxWxD)	30"x18"x9"	30"x18"x9"	32"x18"x9"	32"x18"x9"
Pkg. Dimension (HxWxD)	34.5" x 18" x 9.5"	34.5" x 18" x 9.5"	34.5" x 18" x 9.5"	34.5" x 18" x 9.5"
System Weight (Lbs/Kgs)	36 / 16.35	36 / 16.35	38 / 17.25	45 / 20.45

*Performance based on feedwater temperature and pressure.

NOTE:

Pressurized storage tank sold separately.

Tanks are available in 14 gallon, 20 gallon, 34 gallon, 44 gallon and 86 gallon capacities.
